

## ITEM OF SEATING FURNITURE

### Abstract of the Disclosure

5       An item of seating furniture having a seat and a  
backrest which are supported in an articulated manner on a  
frame, and having an operating mechanism for adjusting the  
inclination of the seat and the backrest. The backrest has  
a catch member and, when the backrest is inclined from a  
front position into an inclined rear position, the catch  
10       member comes into operative contact with the seat as of a  
specific angle of inclination of the backrest in such a  
manner that further inclination of the backrest brings about  
a simultaneous adjustment of the seat.
